

CANOPY - Installation

Produkt/SKU no.: Cano-X-one

Thank for chosing Marooms Canopy!

This guide illustrates how you can easily install the canopy.

If you are in any need for more information, we are always at your disposal.

Have a nice day,

Marooms

Indhold: *1 x Canopy*
1 x Canopy shade
1 set of poles: 1x pole 1; 1 x pole 2 and 1 x pole 3

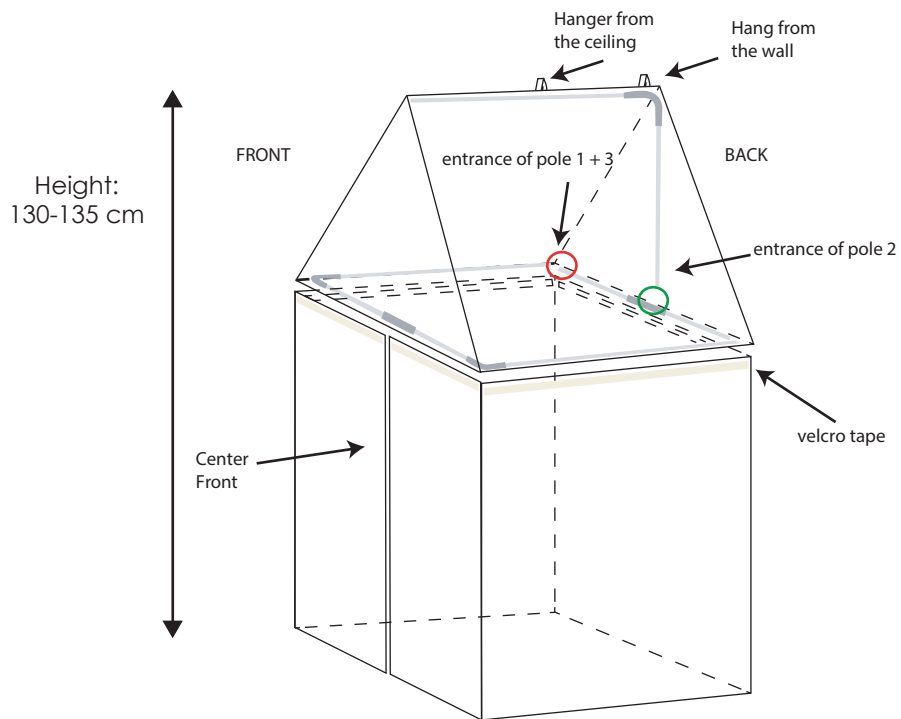

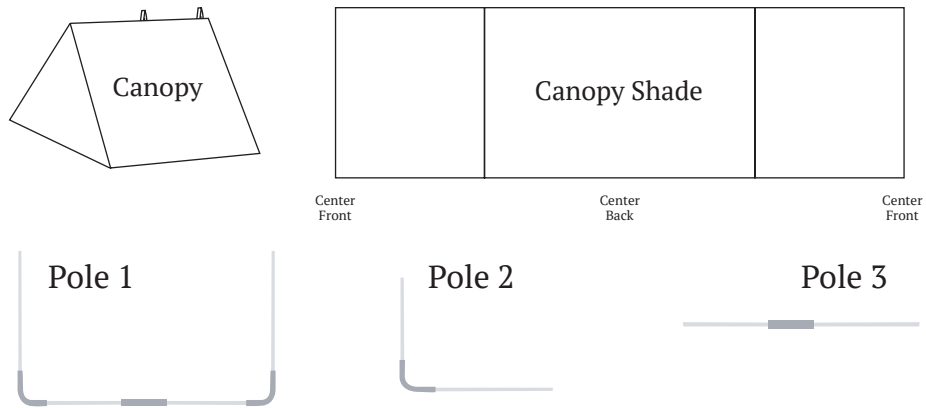

Note! The cup hook and rawlplug is not included as wall material varies.

We sugget to use a cup hook with a length of about 3 cm and a suitable rawlplug

The weight of the canopy is about: 1 kg

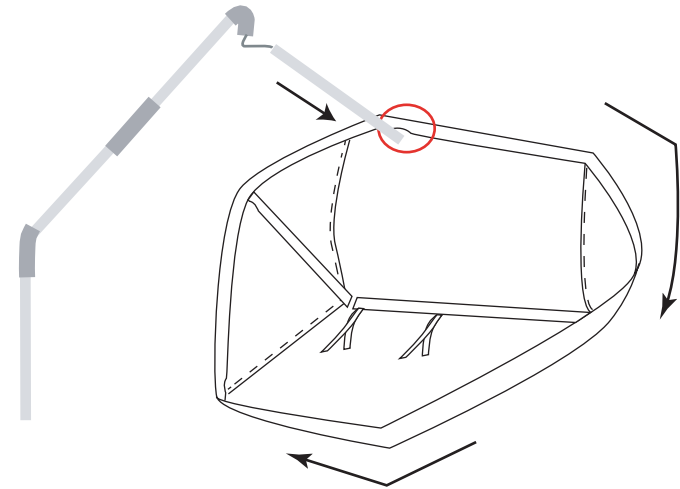

CONTENT:

Step 1:

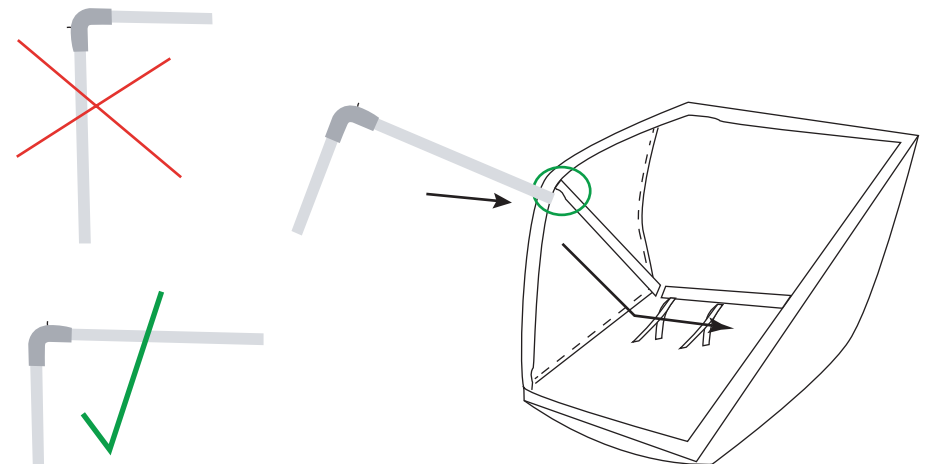

Insert pole1 by sliding the pole into the hole marked with red circle.

Advise: it might be easier to find the entrance to the pole tunnel by looking at the stitches on the facing side of the canopy.

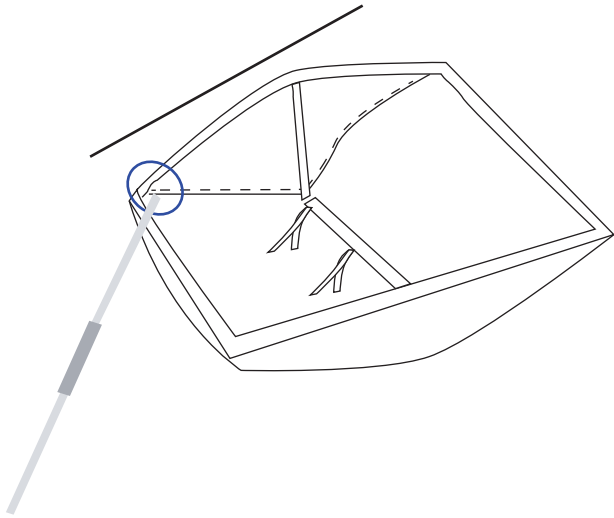

Step 2. Insert pole 2 by sliding the pole into the center hole marked with green circle.

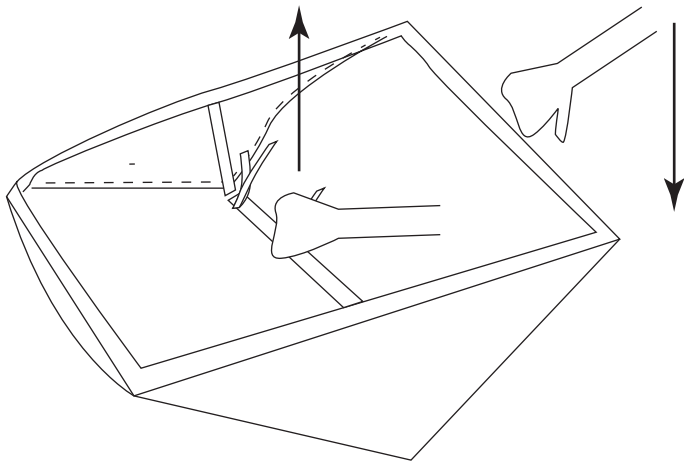

Note: Make sure to slide the longest side part of the pole first.

Step 3: Insert pole 3 at the last tunnel marked with blue circle.

Step 4: Turn the Canopy around by pulling the straps and holding the side of the canopy at the same time.

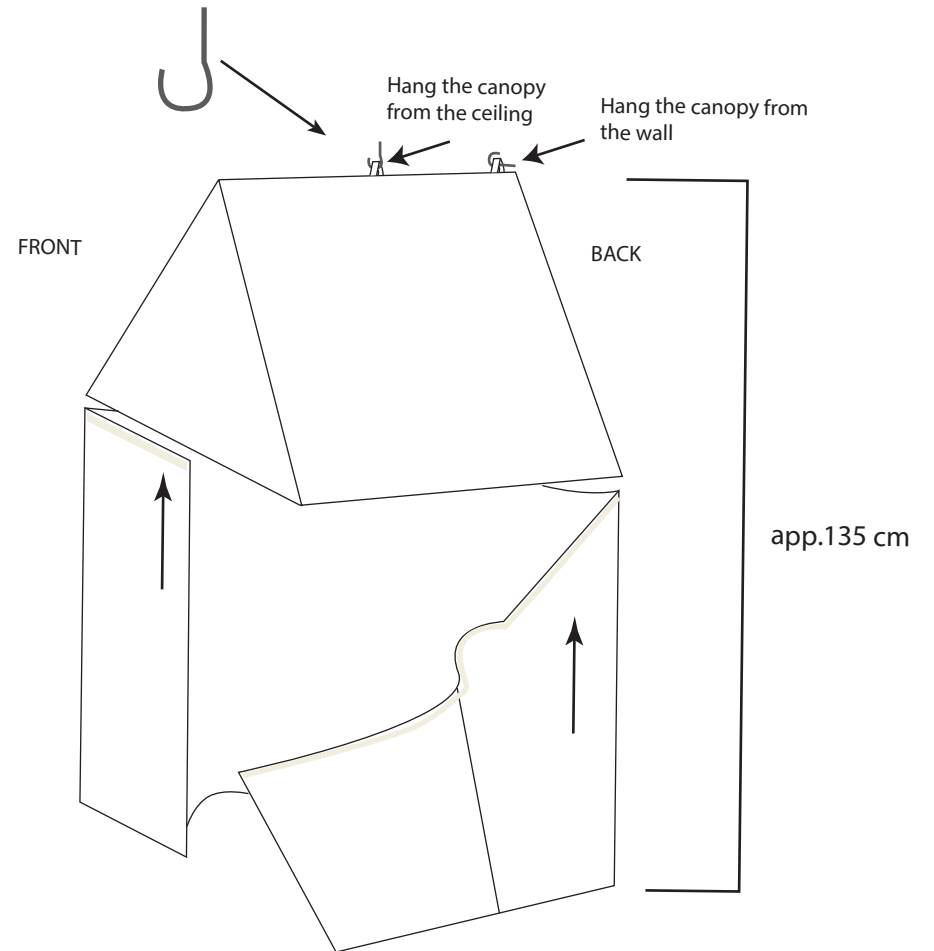

Step 5: Start to install the cup hook and raw plug where you want to hang the canopy, and hang the canopy in one of the loops on the cup hook.

Note the height of the canopy is about 135 cm.

Step 6: Hang the canopy on the hook. Now it is easy to attach the canopy shade to the canopy. Start from the center front and work your way around it.

Note: to ensure that it is to put a LED light inside, it is on purpose that the canopy and shades do not fit 100%.

Maintenance:

Avoid to hang the canopy in direct sunlight to keep it colours.

Space the enviroment and wash only when it is necessary.

Washing instructions:

No soaking

Wash inside out.

Wash sepeartely the first couple of times.

Wash with similar colours.
